A VISIONARY

I'm delighted to introduce myself as a seasoned leader by nature and a collaborative team player with a vision. My experience extends to successfully working alongside both individuals and teams across all organizational levels. I bring to the table a diverse skill set that includes proficiency in writing, film production, video editing, photography, web and graphic design, pitch decks, lookbooks, media kits, and social media management. I'm well-versed in various software tools, with expertise in Adobe Creative Suite, Davinci Resolve Studio, Final Cut Pro Studio, Final Draft, Microsoft Office 365, Google Workspace, WordPress, and more.

3 CAPTURING IT ALL

A picture is worth a thousand words. Most of my photographic work revolves around architectural wonders and sculpture marvels. I not only showcase their design but also captivate the viewer's eye with their aesthetic appeal. I market my photos as stock images on the internet. Additionally, I engage in product photography, both shooting and arranging retail and culinary items. It's important to note that my photography ventures go beyond the mentioned realms.

A photograph of several pairs of shoes and boots scattered on a cobblestone path next to a body of water. The text "A PICTURE IS WORTH A THOUSAND WORDS" is overlaid in the center. The scene is captured in a cinematic style with a white frame around the image.

4 DIGITAL CRAFTSMANSHIP

As a graphic designer, I arrange a variety of design elements to achieve artistic effects curated for my clients needs. The programs I use are Adobe Photoshop and Illustrator. Most of my artistry lies in logo and poster creations, however, I also designed layouts for websites and marketing materials.
